LP RECAPITALIZATION · $13,255,085

Wylder Hotel Tilghman Island.

*A **$13,255,085 limited partner recapitalization** of the equity in a 58-key waterfront resort in Talbot County, Maryland — retiring the existing loan and the merchant cash advance in full and acquiring the adjacent waterfront parcel. **The LP funds the entire closing and no debt sits ahead of it.** The asset, the business plan and the capital requirement are set out in full; the return structure and the distribution waterfall are open and will be set with the lead investor.*

TILGHMAN ISLAND

November 11, 2026 · Tilghman Island, MD

Summary of the recapitalization.

Marcus & Millichap Capital Corporation is placing a **$13,255,085 limited partner recapitalization** of the equity in Wylder Hotel Tilghman Island. The LP funds the entire closing, retiring the existing loan and the merchant cash advance in full and buying the adjacent parcel; a $7,000,000 senior refinance in month three funds the renovation and returns $2,070,384 of capital inside 90 days. **The return structure and the distribution waterfall are to be determined** and are open for discussion with the lead investor.

LP EQUITY

Preferred return, waterfall and promote to be determined

A 58-key waterfront resort on 8.10 acres, with an adjacent parcel under contract.

Wylder Hotel Tilghman Island sits on Tilghman Island in Talbot County, Maryland, between the Chesapeake Bay and the Choptank River — an 8.10-acre waterfront parcel with 1,100 feet of water frontage, a marina, pool, restaurant and boat bar. Operated under the Wylder Hotels brand, the property is mid-repositioning, with a Small Luxury Hotels affiliation planned for Year 2. The adjacent parcel at 21441 Dogwood Cove — three acres, a four-bedroom residence and 24 boat slips — is under contract and funded in this capitalization; see page 5.

TRANSACTION

Purchase price	$1,100,000
Status	Under contract
Closing date	Nov 18, 2026
Interest conveyed	Fee simple
Deposit	$15,000
Renovation to bring online	$300,000
Total acquisition cost	**$1,400,000**

Acquired by **21551 Tilghman Investors LLC**, the entity that owns the hotel, so the parcel comes into the partnership rather than a separate venture. The parcel closes on November 18, 2026, shortly after the recapitalization.

The parcel sits at 21441 Dogwood Cove, Tilghman, Talbot County, Maryland.

WHAT IT ADDS

Boat slips	24
Land	±3 acres
Residence	4 bedrooms
Keys	1 · whole-home suite
Site on completion	±11.1 acres
Marina slips on completion	**47**

The residence becomes a **whole-home suite**, a product the hotel cannot offer today, and is counted as the 58th key. Its 24 slips take the marina from 23 slips today to 47 on completion.

It is underwritten conservatively — a **$1,500 nightly rate at 35% occupancy**, or $191,625 of annual revenue from stabilization.

WHY IT MATTERS

The parcel was **part of the hotel until it was separated and sold to a third party during a bankruptcy roughly ten years ago**. Acquiring it reassembles the original assemblage and takes the last private parcel between the hotel and its waterfront off the market.

The $1,100,000 purchase is **funded from LP equity at closing**, with no acquisition debt against the parcel. The $300,000 renovation is held back by the senior lender at the refinance and drawn against the work.

The estimated values in this package — $21,400,000 as is, $26,000,000 upon completion and $29,500,000 upon stabilization — **are for the hotel and do not include this parcel**. Every basis, coverage and return figure is measured against them, so what the acquisition is worth is upside those numbers do not carry.

Capitalize the EBITDA the parcel itself produces — the marina and room revenue — at 7.0% and it is worth **roughly $4.3 million** against a $1.4 million all-in cost.

ALL-IN COST	EBITDA AT STABILIZATION	AT A 7.0% CAP RATE	VALUE ABOVE COST
$1,400,000	**~$300,000**	**~$4.3M**	**~$2.9M**
Purchase plus renovation	Marina and room revenue from the parcel	Implied value of that EBITDA	In no value estimate in this package

Ownership and operating structure.

The property is owned by **21551 Tilghman Investors LLC**, led by principal **John Flannigan**, and operated under the **Wylder Hotels** brand through affiliate Wylder Eastern Shore Management, LLC — controlling day-to-day operations and the renovation, with a Small Luxury Hotels affiliation planned for Year 2.

OWNERSHIP **21551 Tilghman Investors LLC**	PRINCIPAL **John Flannigan**
OPERATOR / BRAND **Wylder Hotels**	MANAGER **Wylder Eastern Shore Mgmt.**

STRUCTURE AND ALIGNMENT

01 **Owner-operated, no third-party manager** — Day-to-day operations are run by an affiliate of ownership. There is no third-party management agreement to terminate or subordinate, no comfort letter to negotiate and no split incentive between owner and operator.

02 **Continuous ownership since 2017** — The sponsor has owned and operated the hotel under the Wylder brand through the pandemic cycle and the current repositioning, investing a further $642,693 of capital between 2021 and 2025.

03 **Single-asset ownership entity** — 21551 Tilghman Investors LLC holds this property and, on closing, the adjacent Dogwood Cove parcel — and no other operating assets — keeping the collateral and its cash flow ring-fenced.

04 **Two-property brand platform** — Revenue management, distribution, design and procurement are shared across Wylder Hotels in Maryland and New York, giving a 58-key asset reach it could not support standing alone.

Operating statements are produced monthly at the property level and are the basis for the historical figures in this package. Financial reporting, revenue management and the renovation are handled in-house.

Operator background and brand portfolio.

wylder HOTELS

A boutique hotel brand that acquires, renovates and operates resort properties in drive-to leisure markets. Two resorts on the East Coast.

THE PROOF CASE

Wylder Windham opened in 2022 after roughly $27,000,000 of investment and was named the number one resort in New York State the following year. It is a **Small Luxury Hotels member, the first in the Catskills**, and carries the American Express Fine Hotels & Resorts designation. The affiliation planned at Tilghman Island follows the same path, under the same ownership and the same management company.

Business plan and capital improvement program.

CAPITAL IMPROVEMENT PROGRAM — $3.3M · $56,948 / KEY · SEP 2026 – APR 2027

01 Guest room renovation — $1.43M

Full renovation of all 57 guest rooms at $25,000 per key. **Four out-of-service keys are returned and three added in the back house**, taking the hotel from 50 to 57 — 12.3% more sellable inventory that has never produced revenue.

02 Additional revenue sources — $0.85M

The **marina — 23 slips today, 47 with the Dogwood Cove acquisition**, rebuilt for $250,000 — carries almost no operating overhead and contributes roughly **$341,000 a year** of departmental profit at stabilization, on revenue the property has never captured. A reconfigured boat bar and rebuilt three-bedroom house add further sources, and the adjacent Dogwood Cove residence adds a whole-home suite.

03 Brand affiliation — SLH · Yr 2

Operation under the Wylder Hotels brand, with a planned Small Luxury Hotels affiliation in Year 2 distributed through Hilton channels.

Exterior and interior improvements, contingency and professional fees complete the $3,003,000 hotel program. With $300,000 for the Dogwood Cove residence the total capital program is $3,303,000, or $56,948 per key on 58 keys. **The program is funded from the senior refinance in month three**, held back by the lender and drawn against the work, together with $300,000 for the Dogwood Cove residence; the allocation of those proceeds is on page 21.

REVPAR INDEX TO COMP SET

41.4% → 79% at stabilization

$87 today vs. $210 comp set (STR, Dec 2025)

WHAT DRIVES THE PLAN

Rate recovery on 57 renovated rooms	$265 → $415
Seven keys returned to inventory	+12.3% sellable
Marina to 47 slips	$341,332
Dogwood Cove whole-home suite	$191,625
Small Luxury Hotels affiliation	Year 2

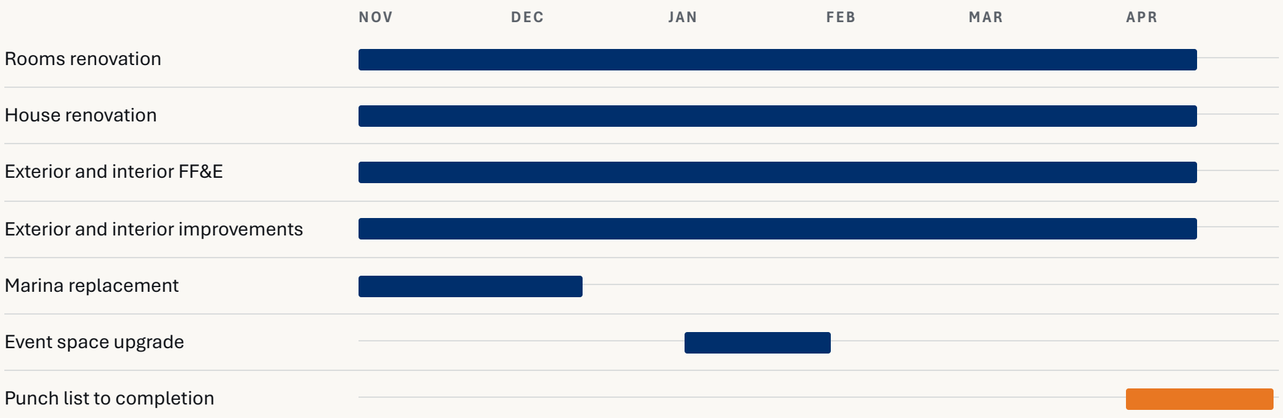

The plan targets a RevPAR index of approximately 79% of this competitive set by stabilization in 2028, **assuming no growth in the underlying market.**

NOI · 2026→2030
2.7x

REVPAR · 2025→2030
$87→$196

The renovation is designed, priced and scheduled.

RENOVATION SCHEDULE · NOVEMBER 2026 TO APRIL 2027

START AND COMPLETION DATES

Rooms renovation	Nov 1, 2026 → Apr 15, 2027
House renovation	Nov 1, 2026 → Apr 15, 2027
Exterior and interior FF&E	Nov 1, 2026 → Apr 15, 2027
Exterior and interior improvements	Nov 1, 2026 → Apr 15, 2027
Marina replacement	Nov 1, 2026 → Dec 15, 2026
Event space upgrade	Jan 4, 2027 → Feb 2, 2027
Punch list to completion	Apr 1, 2027 → Apr 30, 2027

Work begins **November 1, 2026** and completes **April 30, 2027**. The program runs entirely within the low season and completes before the 2027 summer peak — the four months to September carry 72% market occupancy against 40% from November to March.

THE MODEL ROOM IS BUILT

The guest-room specification is complete and can be inspected on site. Finishes, casegoods, lighting, soft goods and bath are installed. The **$25,000 per key** in the budget is priced against a room that exists rather than a drawing, which takes design and specification risk out of the remaining keys and gives the schedule a known unit cost to roll out.

Small Luxury Hotels affiliation and distribution.

WHY THE AFFILIATION MATTERS

HILTON DISTRIBUTION

SLH member hotels are bookable directly through **Hilton.com, the Hilton app and Hilton Honors**. The affiliation places the property inside Hilton's reservation and loyalty system rather than leaving it dependent on direct booking and third-party channels, which is the mechanism behind the projected occupancy and rate gain.

AN ESTABLISHED RELATIONSHIP

The sponsor already operates within SLH. **Wylder Windham, the sister hotel in the Catskills, is an SLH member** and was the first in that market. The application here is an extension of a working relationship rather than a first approach.

AMERICAN EXPRESS FINE HOTELS & RESORTS

Wylder Windham carries the **American Express Fine Hotels & Resorts designation**, reached through the SLH platform. The same designation is the plan at Tilghman Island, adding a high-rate corporate and affluent leisure channel on completion.

Affiliation is targeted on completion of the renovation and remains subject to application, inspection, board approval and an executed brand affiliate agreement.

Capital program funding	From the capitalization
Operating expense ratio	74.2% → 61.9%
Replacement reserve	0% → 3.8% of revenue
Dogwood Cove house	$1,500 ADR · 35% occupancy
Brand	Wylder Hotels
Affiliation	SLH · Year 2

Other revenue comprises food and beverage, resort fee, marina slips, the Dogwood Cove house and miscellaneous income. Operating expenses are total departmental, undistributed and fixed costs, including the replacement reserve. Net operating income is stated before the asset management fee. Per the financial model.

The plan assumes no growth in competitive-set rate or occupancy; the entire RevPAR gain is attributed to the renovation, the added keys, the expanded marina and brand affiliation. Competitive-set performance is held flat at its 2025 level throughout.

Stabilized cash flow carried forward, 2030 through 2041.

Dollars in thousands. **2030 is the last year of the pro forma on the preceding pages**; every year after it continues the same line on the same basis — occupancy held at 43.0%, average rate growing 3.0% a year, no assumed growth in the underlying market and the operating margin held at 38.1%. Net operating income is already stated after a 4.0% management fee and a 3.8% replacement reserve; the memo line steps that reserve to 4.0% and coverage is shown on both. Debt service is the $7,000,000 senior loan held flat and interest-only. This page supports the exit: 2030 is the first full year after a sale at the end of year three. Columns may not foot due to rounding.

Food and beverage	2,519	35.6%	29.3%
Resort fee, marina and miscellaneous	908	12.8%	12.8%
Dogwood Cove house · 1 key	192	2.7%	–
Total revenue	**7,082**	**100.0%**	**100.0%**

FOOD AND BEVERAGE AGAINST OUTLET COMPARABLES

METRIC	SUBJECT	COMP AVG	COMP RANGE
Restaurant revenue per seat	$14,775	$18,540	$11.8K–$33.8K
Event space revenue per SF	$313	$271	$201–$421
Event revenue per occupied room	$184	$95	$36–$206

REVENUE NOT PRESENT IN ANY HISTORICAL PERIOD

SOURCE	REVENUE	DEPARTMENTAL PROFIT
Expanded marina slips	$359,297	**$341,332**
Seven added keys · 50 → 57	$425,292	**$318,969**
Dogwood Cove house · 1 key	$191,625	**$191,625**
Combined at stabilization	**$976,214**	**$851,926**

The **marina is rebuilt and expanded for $250,000** inside the capital plan and carries almost no operating overhead; the model loads it with a 5% direct cost, leaving **$341,332** of departmental profit at stabilization. Four out-of-service keys returned and three added in the back house lift sellable inventory 12.3%. The **Dogwood Cove house** is underwritten at a $1,500 nightly rate and 35% occupancy as a whole-home suite. Food and beverage is a larger share of revenue than the resort segment because of the crab shack, bar and event space against only 58 keys, but restaurant revenue per seat is 20% below the comparable average and event revenue per occupied room is close to the $180 the property itself achieved in 2025.

RATIO TO DEPARTMENTAL REVENUE	SUBJECT	RESORT	INDEPENDENT
Rooms expense	25.0%	25.1%	31.7%
Food and beverage expense	60.0%	72.0%	77.4%

Figures are the 2028 stabilized year of the pro forma; benchmarks are the resort and independent segments of the 2024 United States hotel profitability review. Gross operating profit of 42.0% is 4.8 points above the resort segment, and the replacement reserve at 2.8% is above the 2.1% segment norm and steps to 3.8% by 2029. Three lines run below segment and are flagged rather than smoothed: administrative and general at 6.2%, sales and marketing at 4.3% and property operation and maintenance at 2.4%. Food and beverage cost of 60.0% against a 72.0% segment figure reflects a limited-menu seasonal outlet and event catering rather than a three-meal restaurant. Credit card commissions of 2.9% are carried in undistributed expenses and have no separate segment comparator.

Historical operations and competitive benchmarking.

ACTUAL OPERATIONS

Market total and average	**404**	**56.9%**	**$349.79**	**$199.18**
Wylder Tilghman Island	50	32.9%	$264.79	$87.00

PENETRATION AGAINST THE MARKET

INDEX	2024	2025	TARGET
Occupancy index	59%	58%	–
Rate index	82%	76%	–
RevPAR index	48%	44%	83%

The index fell between 2024 and 2025 because the property was discounting rate while carrying keys out of service — average rate dropped from $291 to $265 against a market holding $350. Rate, not occupancy, is the variance. Recovering it is what the capital program and the affiliation are for.

The market set totals 404 rooms including the subject and a composite of smaller properties. The subject holds 76% of market rate but only 58% of market occupancy, producing a RevPAR index of 44%. The business plan targets 83% of market RevPAR at stabilization — a level still 17% below the market average and below both luxury properties in the set. The STR benchmarking on the preceding page is drawn from a differently constituted set of four properties and 364 rooms; the two are not interchangeable.

MARKET SUPPLY AND DEMAND

YEAR	SUPPLY	DEMAND	OCC	ADR	REVPAR
2019	396	76,475	52.9%	$266	$141
2021	396	82,180	56.8%	$316	$179
2022	407	87,883	59.1%	$317	$187
2023	404	77,581	52.6%	$353	$186
2024	404	79,802	54.1%	$354	$192
2025	**404**	**84,017**	**56.9%**	**$350**	**$199**
TTM March 2026	404	84,809	57.5%	$350	$201
CAGR 2019–2025	0.3%	1.6%	1.2%	4.7%	6.0%

WHAT THE MARKET TREND SUPPORTS

Market supply has been unchanged at approximately 404 rooms since 2022, while demand has grown in each of the last two years and reached a ten-year high of 84,017 room nights in 2025. Trailing twelve-month demand through March 2026 is running 5.6% ahead of the prior period. Market RevPAR has compounded at 6.0% a year since 2019 and stands at a record $199. The projections adopt none of this growth: rate and occupancy for the competitive market are held flat at 2025 levels throughout, so the entire RevPAR gain in the plan is attributed to the renovation, the seven added keys, the expanded marina, the adjacent parcel and the brand affiliation.

MARKET SEASONALITY · MONTHLY OCCUPANCY 2025

PERIOD	OCC	ADR	REVPAR
Peak · June to September	**72.0%**	**$396**	**$285**
Shoulder · April, May, October	64.6%	$355	$231
Trough · November to March	40.0%	$267	$109

Demand is concentrated: four peak months run at 72% occupancy against 40% across the five winter months. Projections are annual averages; interim coverage follows the same pattern. Figures are monthly averages.

Demand figures are annual room nights for the market set. Supply is average rooms available per day.

Drive-to demand, visitation and new supply.

DRIVE-TO LEISURE DEMAND

CLOSING, LEGAL AND OTHER DETAIL

Legal — borrower	$65,000
Other closing costs	$40,000
Legal — LP	$15,000
Third-party reports and fees	$10,100
Total closing, legal and other	**$130,100**

Fees total **$530,203**, or 4.00% of gross LP equity — a 2.00% origination fee retained by the LP at funding and a 2.00% placement fee to Marcus & Millichap Capital Corporation. Totals may differ by $1 from the sum of components due to rounding.

WHAT THE EQUITY DOES

The LP equity **clears the balance sheet**: it retires the $10,714,782 existing loan and the $530,000 merchant cash advance, buys the adjacent parcel at 21441 Dogwood Cove for $1,100,000 and funds $250,000 of working capital. The renovation is funded from the senior refinance on page 21, not from closing equity.

What is being sought, and what is still open.

RETURN STRUCTURE

Open

Preferred return, waterfall and promote to be determined

Preferred return	To be determined
Return of capital	To be determined
Residual split	To be determined
Sponsor promote	To be determined
Ownership and governance	To be determined

WHAT IS FIXED

The asset, the business plan and the renovation program; the $13,255,085 capital requirement and the uses of funds on page 19; the $7,000,000 senior refinance that funds the plan and returns $2,070,384 of capital in month three. All of it is set out in the pages that follow.

WHAT IS OPEN

The preferred return, the order and mechanics of the distribution waterfall, the residual split, the promote, the ownership percentages and the governance terms. None of it is pre-set, and the framework on page 22 is deliberately left without rates.

NEXT STEP

An indication of interest on size and structure. A term sheet, the full financial model, the historical operating statements, the purchase and sale agreement on the adjacent parcel and sponsor materials follow on request.

A $7,000,000 senior refinance funds the business plan.

ALLOCATION OF SENIOR REFINANCE PROCEEDS

Capital improvement plan holdback	$3,003,000
Return of capital to the LP	$2,070,384
Interest reserve · 15 months	$732,434
Working capital reserve	$500,000
Lender fees, recordation, title and legal	$394,182
Dogwood Cove renovation holdback	$300,000
Total	**$7,000,000**

The senior refinance funds in month three, approximately 90 days after closing. **Its terms are not part of this request** and are being arranged separately; the allocation above is what the proceeds do for the business plan.

WHAT IT DOES FOR THE PLAN

IT FUNDS THE RENOVATION

$3,003,000 for the hotel capital improvement plan and $300,000 for the Dogwood Cove residence are held back by the lender and drawn against the work, so the renovation is not a call on closing equity. The schedule by trade is on page 9.

IT RETURNS CAPITAL EARLY

$2,070,384 goes back to the LP in month three — 15.9% of net cash invested, inside 90 days — which is why net capital in the asset is $18,184,701 rather than the full amount raised.

IT CARRIES ITSELF THROUGH THE WORK

A 15-month interest reserve and a $500,000 working capital reserve are funded from the same proceeds, so no operating cash is required to carry the loan while the asset is down for the renovation.

IT IS THE ONLY DEBT IN THE PLAN

The balance is modeled flat for the full hold, with no further draw and no second refinance assumed. The extended cash flow on page 13 carries it at that level.

RETURNED IN MONTH THREE	HELD BACK FOR THE WORK	DEBT AT CLOSING
$2,070,384	**$3,303,000**	**$0**
15.9% of net cash invested	*Hotel plan and Dogwood Cove*	*The LP funds the close alone*

The distribution waterfall, with the terms left open.

THE WATERFALL FRAMEWORK

TIER 1

Preferred return

A cumulative return accruing on contributed capital, paid before any capital is returned.

`Rate and compounding to be determined`

TIER 2

Return of capital

Contributed capital returned in full before any residual is shared. The month-three refinance already returns part of it.

`Order and priority to be determined`

TIER 3

Residual split

What remains after the preferred return and the return of capital, divided between the limited partner and the sponsor.

`Split and any hurdles to be determined`

PROMOTE

Sponsor promote

Any share of the residual the sponsor earns above its contributed capital.

`Structure and thresholds to be determined`

The order above is the conventional one and is shown so the mechanics are clear. **No rate, split, hurdle or promote is proposed here.** Each is open and will be set with the lead investor before a term sheet is drawn.

WHAT WILL SET THE TERMS

HOLD PERIOD AND EXIT

The projections on pages 11 to 13 carry a three-year hold and a stabilized year, with the cash flow extended to 2041 so an exit can be underwritten. The hold assumed in the waterfall follows from what the lead investor wants.

THE LP FUNDS THE WHOLE CLOSING

$13,255,085 of LP equity is 100% of sources at closing and no debt sits ahead of it. The $7,000,000 refinance arrives in month three and returns $2,070,384, so the capital at risk falls early in the hold.

SPONSOR CAPITAL AND CONTROL

Wylder Hotels is the operator and managing member. Whether the sponsor contributes capital, and how any existing equity is credited, is part of the structure to be agreed rather than something assumed here.

GOVERNANCE

Major-decision consents over a sale, a refinance, the budget, replacement of the manager and additional debt, together with removal rights, reporting and the treatment of future capital calls, are to be documented alongside the economics.

WHAT IS AVAILABLE NOW

The full financial model, the historical operating statements, the purchase and sale agreement on the adjacent parcel and sponsor materials are available on request, so the structure can be priced against the numbers rather than around them.

Event space upgrade	Jan 2, 2027 → Jan 31, 2027
Punch list to completion	**Mar 1, 2027 → Apr 1, 2027**

Total capital raised is **$20,255,085** — $13,255,085 of LP equity and the $7,000,000 senior loan — of which $2,070,384 is returned to the LP at the refinance. A further **$642,693** was invested in the hotel between 2021 and 2025, outside the plan at right. Totals may differ by $1 from the sum of components due to rounding.

The hotel capital plan and the Dogwood Cove renovation are **held back by the senior lender and drawn against the work**; the schedule by trade is on page 9. Per-key figures are stated on 58 keys — the 57 hotel keys post-renovation plus the Dogwood Cove residence. The as-complete and stabilized values are for the hotel and exclude the adjacent parcel.

Estimated value positioned against market evidence.

PER-KEY POSITIONING

MEASURE	AMOUNT	PER KEY
LP equity	$13.26M	$228,536
Net capital in the asset	$18.18M	$313,529
Estimated as-is	**$21.40M**	**$368,966**
Estimated upon completion	$26.00M	$448,276
Estimated upon stabilization	**$29.50M**	**$508,621**
Waterfront sales · weighted avg	$18.05M	$396,000
Waterfront sales · median	$15.00M	$397,000
Recent resort trades · weighted avg	$20.28M	$463,000
Recent resort trades · median	$10.75M	$332,000

Values are stated for underwriting purposes and are subject to completion of the renovation and stabilization of operations. They are for the hotel and **do not include the adjacent Dogwood Cove parcel**, whose value is set out on page 5. Per-key figures on 58 keys. Comparable per-key figures are on each property's own key count.

THE POSITION

The as-is estimate of **$368,966 per key sits below the average of both comparable sets** — the East Coast waterfront sales and the eight resort trades closed since January 2025 — and between the median and the average of the more recent set.

The stabilized estimate of **$508,621 per key** sits below the two highest recent resort trades, at $741,000 and $893,000 per key, and is reached only after a $3,303,000 capital program, the adjacent-parcel acquisition and brand affiliation.

Net capital in the asset of **$313,529 per key remains below the as-is estimate**, and the LP equity attaches at $228,536 per key. Every value above is for the hotel alone; the adjacent parcel adds roughly $4.3 million of value against a $1.4 million cost, none of which is in these figures.

EASTERN SHORE MARKET ACTIVITY

PROPERTY · TOWN	STATUS	KEYS	$/KEY
Tilghman Island Inn · Tilghman	Under contract	20	$260K
Robert Morris Inn · Oxford	Closed, relisted	16	$200K
The Tidewater Inn · Easton	To market 2026	89	–

> The **Tilghman Island Inn** is the nearest transaction and is reported under contract at $5,200,000. It is a **20-key upper-midscale property configured as condominium units** on five acres, with 1,800 SF of meeting space and seven slips. It carries neither the key count, the two food and beverage outlets, the marina, the 3,722 SF of event space nor the income base of the subject, and it establishes small-inn pricing on the island rather than resort pricing.

WHAT THE LOCAL SET DOES ESTABLISH

The **Tidewater Inn**, an 89-key full-service hotel in Easton, is expected to be brought to market in 2026 and reported 2025 occupancy of 48% at a $238 average rate on approximately $950,000 of net operating income. It is the only property in the local set operating at institutional scale, and it does so at a rate 43% below the subject's $415 stabilized projection and without waterfront, marina or resort positioning. The **Robert Morris Inn** in Oxford, 16 keys, traded at $200,000 per key in 2024 and is now closed and back on the market at a lower asking price. The local evidence brackets the subject rather than pricing it: small and partly distressed inns below, and a single larger property in a materially different product tier.

The eight resort transactions at left average 44 keys, closely matching the subject at 58, and support a per-key range of $266,000 to $893,000 with a median of $332,000. The estimated as-is value of $368,966 per key sits between that median and the average.

Contact and next steps.
