# A 58-key waterfront resort on 8.10 acres, with an adjacent parcel under contract.

Wylder Hotel Tilghman Island sits on Tilghman Island in Talbot County, Maryland, between the Chesapeake Bay and the Choptank River — an 8.10-acre waterfront parcel with 1,100 feet of water frontage, a marina, pool, restaurant and boat bar. Operated under the Wylder Hotels brand, the property is mid-repositioning, with a Small Luxury Hotels affiliation planned for Year 2. The adjacent parcel at 21441 Dogwood Cove — three acres, a four-bedroom residence and 24 boat slips — is under contract and funded in this capitalization; see page 5.

## TRANSACTION

| | |
|---|---|
| Purchase price | $1,100,000 |
| Status | Under contract |
| Closing date | Nov 18, 2026 |
| Interest conveyed | Fee simple |
| Deposit | $15,000 |
| Renovation to bring online | $300,000 |
| **Total acquisition cost** | **$1,400,000** |

Acquired by **21551 Tilghman Investors LLC**, the entity that owns the hotel, so the parcel comes into the borrowing entity rather than a separate venture. The parcel closes on November 18, 2026, shortly after the recapitalization.

The parcel sits at 21441 Dogwood Cove, Tilghman, Talbot County, Maryland.

## WHAT IT ADDS

| | |
|---|---|
| Boat slips | 24 |
| Land | ±3 acres |
| Residence | 4 bedrooms |
| Keys | 1 · whole-home suite |
| Site on completion | ±11.1 acres |
| **Marina slips on completion** | **47** |

The residence becomes a **whole-home suite**, a product the hotel cannot offer today, and is counted as the 58th key. Its 24 slips take the marina from 23 slips today to 47 on completion.

It is underwritten conservatively — a **$1,500 nightly rate at 35% occupancy**, or $191,625 of annual revenue from stabilization.

## WHY IT MATTERS

The parcel was **part of the hotel until it was separated and sold to a third party during a bankruptcy roughly ten years ago**. Acquiring it reassembles the original assemblage and takes the last private parcel between the hotel and its waterfront off the market.

The $1,100,000 purchase is **funded from the capitalization at closing**, with no acquisition debt against the parcel. The $300,000 renovation is funded from the same proceeds.

The estimated values in this package — $21,400,000 as is, $26,000,000 upon completion and $29,500,000 upon stabilization — **are for the hotel and do not include this parcel**. Every basis, coverage and return figure is measured against them, so what the acquisition is worth is upside those numbers do not carry.

Capitalize the EBITDA the parcel itself produces — the marina and room revenue — at 7.0% and it is worth **roughly $4.3 million** against a $1.4 million all-in cost.

| ALL-IN COST | EBITDA AT STABILIZATION | AT A 7.0% CAP RATE | VALUE ABOVE COST |
|---|---|---|---|
| **$1,400,000** | **~$300,000** | **~$4.3M** | **~$2.9M** |
| Purchase plus renovation | Marina and room revenue from the parcel | Implied value of that EBITDA | In no value estimate in this package |

# Ownership and operating structure.

The property is owned by **21551 Tilghman Investors LLC**, led by principal **John Flannigan**, and operated under the **Wylder Hotels** brand through affiliate Wylder Eastern Shore Management, LLC — controlling day-to-day operations and the renovation, with a Small Luxury Hotels affiliation planned for Year 2.

| OWNERSHIP<br>**21551 Tilghman Investors LLC** | PRINCIPAL<br>**John Flannigan** |
| OPERATOR / BRAND<br>**Wylder Hotels** | MANAGER<br>**Wylder Eastern Shore Mgmt.** |

## STRUCTURE AND ALIGNMENT

01 **Owner-operated, no third-party manager** — Day-to-day operations are run by an affiliate of ownership. There is no third-party management agreement to terminate or subordinate, no comfort letter to negotiate and no split incentive between owner and operator.

02 **Continuous ownership since 2017** — The sponsor has owned and operated the hotel under the Wylder brand through the pandemic cycle and the current repositioning, investing a further $642,693 of capital between 2021 and 2025.

03 **Single-asset ownership entity** — 21551 Tilghman Investors LLC holds this property and, on closing, the adjacent Dogwood Cove parcel — and no other operating assets — keeping the collateral and its cash flow ring-fenced.

04 **Two-property brand platform** — Revenue management, distribution, design and procurement are shared across Wylder Hotels in Maryland and New York, giving a 58-key asset reach it could not support standing alone.

Operating statements are produced monthly at the property level and are the basis for the historical figures in this package. Financial reporting, revenue management and the renovation are handled in-house.

# Business plan and capital improvement program.

CAPITAL IMPROVEMENT PROGRAM — $3.3M · $56,948 / KEY · SEP 2026 – APR 2027

## 01 Guest room renovation — $1.43M

Full renovation of all 57 guest rooms at $25,000 per key. **Four out-of-service keys are returned and three added in the back house**, taking the hotel from 50 to 57 — 12.3% more sellable inventory that has never produced revenue.

## 02 Additional revenue sources — $0.85M

The **marina — 23 slips today, 47 with the Dogwood Cove acquisition**, rebuilt for $250,000 — carries almost no operating overhead and contributes roughly **$341,000 a year** of departmental profit at stabilization, on revenue the property has never captured. A reconfigured boat bar and rebuilt three-bedroom house add further sources, and the adjacent Dogwood Cove residence adds a whole-home suite.

## 03 Brand affiliation — SLH · Yr 2

Operation under the Wylder Hotels brand, with a planned Small Luxury Hotels affiliation in Year 2 distributed through Hilton channels.

Exterior and interior improvements, contingency and professional fees complete the $3,003,000 hotel program. With $300,000 for the Dogwood Cove residence the total capital program is $3,303,000, or $56,948 per key on 58 keys. **The program is funded at close from the capitalization**, together with $300,000 for the Dogwood Cove residence; sources and uses are on page 19.

Work begins **November 1, 2026** and completes **April 30, 2027**. The program runs entirely within the low season and completes before the 2027 summer peak — the four months to September carry 72% market occupancy against 40% from November to March.

### THE MODEL ROOM IS BUILT

The guest-room specification is complete and can be inspected on site. Finishes, casegoods, lighting, soft goods and bath are installed. The **$25,000 per key** in the budget is priced against a room that exists rather than a drawing, which takes design and specification risk out of the remaining keys and gives the schedule a known unit cost to roll out.

# Small Luxury Hotels affiliation and distribution.

## WHY THE AFFILIATION MATTERS

### HILTON DISTRIBUTION

SLH member hotels are bookable directly through **Hilton.com, the Hilton app and Hilton Honors**. The affiliation places the property inside Hilton's reservation and loyalty system rather than leaving it dependent on direct booking and third-party channels, which is the mechanism behind the projected occupancy and rate gain.

### AN ESTABLISHED RELATIONSHIP

The sponsor already operates within SLH. **Wylder Windham, the sister hotel in the Catskills, is an SLH member** and was the first in that market. The application here is an extension of a working relationship rather than a first approach.

### AMERICAN EXPRESS FINE HOTELS & RESORTS

Wylder Windham carries the **American Express Fine Hotels & Resorts designation**, reached through the SLH platform. The same designation is the plan at Tilghman Island, adding a high-rate corporate and affluent leisure channel on completion.

Affiliation is targeted on completion of the renovation and remains subject to application, inspection, board approval and an executed brand affiliate agreement.

Operating expenses are total departmental, undistributed and fixed costs, including the replacement reserve. Net operating income is stated before the asset management fee. Per the financial model.

The plan assumes no growth in competitive-set rate or occupancy; the entire RevPAR gain is attributed to the renovation, the added keys, the expanded marina and brand affiliation. Competitive-set performance is held flat at its 2025 level throughout.

| **Combined at stabilization** | **$976,214** | **$851,926** |

The **marina is rebuilt and expanded for $250,000** inside the capital plan and carries almost no operating overhead; the model loads it with a 5% direct cost, leaving **$341,332** of departmental profit at stabilization. Four out-of-service keys returned and three added in the back house lift sellable inventory 12.3%. The **Dogwood Cove house** is underwritten at a $1,500 nightly rate and 35% occupancy as a whole-home suite. Food and beverage is a larger share of revenue than the resort segment because of the crab shack, bar and event space against only 58 keys, but restaurant revenue per seat is 20% below the comparable average and event revenue per occupied room is close to the $180 the property itself achieved in 2025.

Figures are the 2028 stabilized year of the pro forma; benchmarks are the resort and independent segments of the 2024 United States hotel profitability review. Gross operating profit of 42.0% is 4.8 points above the resort segment, and the replacement reserve at 2.8% is above the 2.1% segment norm and steps to 3.8% by 2029. Three lines run below segment and are flagged rather than smoothed: administrative and general at 6.2%, sales and marketing at 4.3% and property operation and maintenance at 2.4%. Food and beverage cost of 60.0% against a 72.0% segment figure reflects a limited-menu seasonal outlet and event catering rather than a three-meal restaurant. Credit card commissions of 2.9% are carried in undistributed expenses and have no separate segment comparator.

The index fell between 2024 and 2025 because the property was discounting rate while carrying keys out of service — average rate dropped from $291 to $265 against a market holding $350. Rate, not occupancy, is the variance. Recovering it is what the capital program and the affiliation are for.

The market set totals 404 rooms including the subject and a composite of smaller properties. The subject holds 76% of market rate but only 58% of market occupancy, producing a RevPAR index of 44%. The business plan targets 83% of market RevPAR at stabilization — a level still 17% below the market average and below both luxury properties in the set. The STR benchmarking on the preceding page is drawn from a differently constituted set of four properties and 364 rooms; the two are not interchangeable.

## WHAT THE MARKET TREND SUPPORTS

Market supply has been unchanged at approximately 404 rooms since 2022, while demand has grown in each of the last two years and reached a ten-year high of 84,017 room nights in 2025. Trailing twelve-month demand through March 2026 is running 5.6% ahead of the prior period. Market RevPAR has compounded at 6.0% a year since 2019 and stands at a record $199. The projections adopt none of this growth: rate and occupancy for the competitive market are held flat at 2025 levels throughout, so the entire RevPAR gain in the plan is attributed to the renovation, the seven added keys, the expanded marina, the adjacent parcel and the brand affiliation.

## MARKET SEASONALITY · MONTHLY OCCUPANCY 2025

| Shoulder · April, May, October | 64.6% | $355 | $231 |
| Trough · November to March | 40.0% | $267 | $109 |

Demand is concentrated: four peak months run at 72% occupancy against 40% across the five winter months. Projections are annual averages; interim coverage follows the same pattern. Figures are monthly averages.

Demand figures are annual room nights for the market set. Supply is average rooms available per day.

POSITION

The loan is the only debt on the asset and is secured by a first trust deed. $6,518,628 of subordinate capital funds concurrently at close and $2,000,000 of sponsor cash is already invested, giving a 43.9% cushion beneath the loan on total basis.

RESERVE AND CARRY

A $1,320,000 interest and carry reserve — twelve months of debt service — is funded from the capitalization at close and covers the renovation period in full, before the asset reopens under the brand.

TAKEOUT

At an indicative 6.50% on a 30-year amortizing basis, debt service is $834,330 and coverage is 2.77x on 2027 cash flow, so a conventional permanent loan clears the balance at maturity. The test is on page 21.

2026 is the renovation year: the asset is down for the program and coverage is 0.86x. The $1,320,000 interest and carry reserve funded at close pays twelve months of debt service in full, so the shortfall is pre-funded and does not depend on operations. Coverage reaches 1.75x in the first full year after reopening.

The loan is sized so that a conventional permanent takeout clears comfortably: at an indicative 6.50% on a 30-year amortizing basis, debt service is $834,330 and coverage is 2.77x on 2027 cash flow. Estimated values are for underwriting and exclude the adjacent Dogwood Cove parcel.

Values are stated for underwriting purposes and are subject to completion of the renovation and stabilization of operations. They are for the hotel and **do not include the adjacent Dogwood Cove parcel**, whose value is set out on page 5. Per-key figures on 58 keys. Comparable per-key figures are on each property's own key count.

## THE POSITION

The as-is estimate of **$368,966 per key sits below the average of both comparable sets** — the East Coast waterfront sales and the eight resort trades closed since January 2025 — and between the median and the average of the more recent set.

The stabilized estimate of **$508,621 per key** sits below the two highest recent resort trades, at $741,000 and $893,000 per key, and is reached only after a $3,303,000 capital program, the adjacent-parcel acquisition and brand affiliation.

The total cost basis of **$334,446 per key remains below the as-is estimate**, and the senior loan attaches at $189,655 per key. Every value above is for the hotel alone; the adjacent parcel adds roughly $4.3 million of value against a $1.4 million cost, none of which is in these figures.

## LOCAL EASTERN SHORE TRANSACTIONS

| PROPERTY · TOWN | YEAR | KEYS | $/KEY |
|---|---|---|---|
| Hambleton Inn, Saint Michaels | 2024 | 7 | $354K |
| Mariners Motel, Rock Hall | 2025 | 12 | $200K |
| Robert Morris Inn, Oxford | 2024 | 16 | $200K |
| Oaks Waterfront Inn, Royal Oak | 2022 | 15 | $190K |
| Great Oak Landing, Chestertown | 2020 | 28 | $169K |
| The Wildset, Saint Michaels | 2020 | 20 | $160K |
| Bartlett Pear Inn, Easton | 2021 | 8 | $125K |
| Kitty Knight House, Georgetown | 2021 | 12 | $117K |

Local transactions range from **7 to 28 keys** and comprise historic inns, bed-and-breakfasts and mid-century motels without food and beverage outlets, marina or event facilities. They establish small-inn pricing on the Eastern Shore rather than resort pricing, and are not comparable in scale, product or income base to a 58-key waterfront resort.

The subject carries two food and beverage outlets, 23 boat slips, a 3,722 SF event space and a saltwater pool — none present in the local set.

## EASTERN SHORE MARKET ACTIVITY

| PROPERTY · TOWN | STATUS | KEYS | $/KEY |
|---|---|---|---|
| Tilghman Island Inn · Tilghman | Under contract | 20 | $260K |
| Robert Morris Inn · Oxford | Closed, relisted | 16 | $200K |
| The Tidewater Inn · Easton | To market 2026 | 89 | – |

> The **Tilghman Island Inn** is the nearest transaction and is reported under contract at $5,200,000. It is a **20-key upper-midscale property configured as condominium units** on five acres, with 1,800 SF of meeting space and seven slips. It carries neither the key count, the two food and beverage outlets, the marina, the 3,722 SF of event space nor the income base of the subject, and it establishes small-inn pricing on the island rather than resort pricing.

## WHAT THE LOCAL SET DOES ESTABLISH

The **Tidewater Inn**, an 89-key full-service hotel in Easton, is expected to be brought to market in 2026 and reported 2025 occupancy of 48% at a $238 average rate on approximately $950,000 of net operating income. It is the only property in the local set operating at institutional scale, and it does so at a rate 43% below the subject's $415 stabilized projection and without waterfront, marina or resort positioning. The **Robert Morris Inn** in Oxford, 16 keys, traded at $200,000 per key in 2024 and is now closed and back on the market at a lower asking price. The local evidence brackets the subject rather than pricing it: small and partly distressed inns below, and a single larger property in a materially different product tier.

The eight resort transactions at left average 44 keys, closely matching the subject at 58, and support a per-key range of $266,000 to $893,000 with a median of $332,000. The estimated as-is value of $368,966 per key sits between that median and the average.
